	2.	we were told by a very good friend about operations in Slavyansk. Here, although railroad rails and transfer wood and all work was carried on in cubicles, exoccurred. Explosives Plant #12 in Elektrostal employed about plant had two very serious explosions, one in May other in June 1944. About 100 persons were killed although our residence was two or three kilometers.	in an explosives planders of the car wheels were an explosions sometimes 1,000 workers. This light, and the in each explosion.	t made 50×
	2.	we were told by a very good friend about operations in Slavyansk. Here, although railroad rails and transfer wood and all work was carried on in cubicles, exoccurred. Explosives Plant #12 in Elektrostal employed about plant had two very serious explosions, one in May other in June 1944. About 100 persons were killed although our residence was two or three kilometers:	in an explosives planders of the car wheels were an explosions sometimes 1,000 workers. This light, and the in each explosion. It will arrour house were	t made 50×
	2.	we were told by a very good friend about operations in Slavyansk. Here, although railroad rails and transfer wood and all work was carried on in cubicles, exoccurred. Explosives Plant #12 in Elektrostal employed about plant had two very serious explosions, one in May other in June 1944. About 100 persons were killed Although our residence was two or three kilometers: frames and glass were shattered. Many buildings nearly many of the employees at this plant were	in an explosives planders of the car wheels were an explosions sometimes 1,000 workers. This light, and the in each explosion. From the plant, all with ar our house were stained yellow	t made 50×
	2.	we were told by a very good friend about operations in Slavyansk. Here, although railroad rails and transfer of wood and all work was carried on in cubicles, exoccurred. Explosives Plant #12 in Elektrostal employed about plant had two very serious explosions, one in May other in June 1944. About 100 persons were killed Although our residence was two or three kilometers frames and glass were shattered. Many buildings neruined. Many of the employees at this plant were indicating that picrates were manufactured here. We homb casings and loaded bombs on the station loading	in an explosives planders of the car wheels were explosions sometimes 1,000 workers. This light, and the in each explosion. from the plant, all with ar our house were stained yellow a light of the plant of the pl	t made 50×
	2.	we were told by a very good friend about operations in Slavyansk. Here, although railroad rails and trained wood and all work was carried on in cubicles, exoccurred. Explosives Plant #12 in Elektrostal employed about plant had two very serious explosions, one in May other in June 19hh. About 100 persons were killed Although our residence was two or three kilometers frames and glass were shattered. Many buildings nearly indicating that picrates were manufactured here. We bomb casings and loaded bombs on the station loading day. These bombs were of sizes ranging up to 28" in	in an explosives planders of the car wheels were explosions sometimes 1,000 workers. This light, and the in each explosion. from the plant, all with ar our house were stained yellow e also saw empty g platform every n diameter and	t made 50×
	2.	we were told by a very good friend about operations in Slavyansk. Here, although railroad rails and transformed and all work was carried on in cubicles, exoccurred. Explosives Plant #12 in Elektrostal employed about plant had two very serious explosions, one in May other in June 1944. About 100 persons were killed Although our residence was two or three kilometers frames and glass were shattered. Many buildings nervined. Many of the employees at this plant were indicating that picrates were manufactured here. We bomb casings and loaded bombs on the station loading day. These bombs were of sizes ranging up to 28" in 12 ft in length. This plant was still in production 1946 or early in 1947 about 20-40 German scientist	in an explosives planders of the car wheels were explosions sometimes 1,000 workers. This light, and the in each explosion. from the plant, all with ar our house were stained yellow e also saw empty g platform every n diameter and in 1947. Late in	t made 50>
